

# Evaluation of migration project

Piotr Tomasz Bródka  
Zamość's Twin Towns Association

# Summary of the project

## *Are newcomers European citizens?*

---

9 meetings in 8 towns:

- Carcaixent: 07.2016
- Feltre: 08.2016
- Eeklo: 02.2017
- Braunfels: 06.2017
- Kiskunfélegyháza: 09.2017
- Carcaixent: 11.2017
- Newbury: 03.2018
- Bagnols sur Cèze: 05.2018
- Zamość: 07.2018

# Evaluation objective

---

What we have learned?

What problems have we solved?

What problems remain unsolved yet?

Did we meet the goals of the project?

# The questionnaire

# Attitude towards migrants

---

What do you think most people feel about migrants in your country?

What do you think most of the youth feel about migrants in your country?

What do you think most of the elderly people feel about migrants in your country?

What is your attitude?

# General, youth, elderly, me

**We should never allow them to cross our borders, they will destroy everything.**

**Migrants pose real threat to our national security!**

**Maybe best not to come here**

**Neutral - I don't mind either way.**

**There are some negatives, but I see more positives.**

**Migrants can greatly help us, but we need to do it wisely, with proper prior planning.**

**I am happy for them to migrate here.**

# Difficulties

---

What main difficulties did you notice, when it comes to people migrating to another country?

# Difficulties - some sentences from respondents

---

Problems with finding a job, being judged by stereotypes, racial and religious discrimination.

"When in Rome do as the Romans do!" They have to accept our religion, laws and circumstances. But they don't do it.

# Xenophobia - selected responses

---

Stupidity, lack of empathy.

People feel that foreigners are taking their jobs and that they can never get an appointment in their local surgery because foreigners are always there. But I think it is because many people are scared of the unknown.

Lack of proper humanistic education.

Populism of some political parties, stigmatizing entire populations (religions) when there is an attack or criminal facts.

Fears of other culture and customs.

# Impact of the project meetings

Do you think that participation in such project would change point of view of people in your country?

41 responses

# Impact of the project meetings - learning rate

---

We asked people about their knowledge about **historical** and **current** situation of migration in visited countries **before** and **after** the meetings.

Scale 1-7, where 1 means no knowledge and 7 means deep knowledge.

Average surge of knowledge is **1.56** for historical situation and **1.52** for current situation, which means more than **25% growth** in knowledge.

What is interesting, even hosts of the meetings were enriching their knowledge!

# Ways of learning

Respondents were asked to grade in scale 1-5 the effectiveness of different ways of learning.

# Thank you for your attention!

---
